ABOUT ME

Every solution I build starts with asking, why it matters, and how it makes someone's life better.

SKILLS

- Web Development
- Mobile App Development
- Game Development
- Team Leadership
- Project Management
- Time Management
- Task & Timeline Tracking
- QA & Manual Testing
- Client Collaboration
- Technical Planning
- Communication

EMPLOYMENT HISTORY

May 2026 — Present

AI Trainer Specialist, Outlier

- Evaluated AI-generated responses for accuracy, quality, and relevance against defined guidelines.
- Reviewed and refined model outputs to improve consistency, correctness, and overall response quality.
- Provided structured feedback to support ongoing model training and performance improvements.

Feb 2026 — Sep 2026

CountPro PH

8 mos

Web App Developer

May 2026 — Sep 2026 · 5 mos

Web App Developer Intern

Feb 2026 — May 2026 · 4 mos

- Built web-based systems from scratch and helped maintain and improve existing websites.
- Supported technical planning and system architecture discussions, offering input on functionality, user experience, and implementation approaches.
- Worked closely with developers and stakeholders to help identify requirements, evaluate solutions, and prioritize enhancements.
- Assisted in addressing technical challenges and aligning solutions with business goals, with attention to reliability, performance, and usability.

Nov 2025 — Feb 2026

Software Engineer Intern, Argon Software

- Developed and maintained web and application features, handling debugging, code optimization, and end-to-end feature implementation, including building new websites from scratch.
- Led task distribution and guided team members throughout development cycles, ensuring deliverables were completed on time and aligned with project requirements.
- Managed project planning, task breakdown, and timeline tracking, coordinating with the team to monitor progress and proactively resolve blockers.
- Performed manual testing to identify bugs and usability issues, contributing to QA efforts on a part-time capacity.

2024 — 2025

Full Stack Web Developer, Freelance

- Built and maintained responsive web applications using React, Flutter, HTML, CSS, PHP, and JavaScript.
- Collaborated with clients to gather requirements and deliver custom solutions.
- Implemented modern UI/UX designs and development best practices.

EDUCATION

2018 — 2021 | **TVL - Information and Communications Technology, STI** | Malolos, Bulacan

2021 — 2026 | **Bachelor of Science Information Technology, National University** | Baliuag, Bulacan

INDEPENDENT WORK

Jan 2024 — Present

Founder/CEO, FSudoLab (FSudoLab.com)

– Managed client relationships from initial consultation through project delivery, gathering requirements and setting expectations on scope and timelines.

– Directed developers on assigned projects, distributing tasks and reviewing work to keep output aligned with client requirements.

– Managed project timelines and schedules across multiple concurrent engagements, keeping deliverables on track.

EXTRACURRICULAR ACTIVITIES

2020

Hackathon, STI College Malolos

earned 1st Runner-Up in the Hackathon competition at STI College Malolos for showcasing skills and knowledge in mobile app development. The competition highlighted creativity, problem-solving, and technical expertise in designing and developing innovative mobile applications.

2022

Hackathon, National University

achieved 2nd Runner-Up in the Hackathon 2022 competition at NU Baliwag by showcasing skills and expertise in website development. The competition highlighted creativity, technical problem solving, and the ability to design and develop responsive, user friendly, and innovative web applications.

2022

Google Developer Student Club (GDSC) Member, National University Baliwag

became a member of the Google Developer Student Club (GDSC) at NU Baliwag, where he engaged in various technical activities and events to enhance his skills and knowledge in software development. Gained exposure to Firebase and other Google developer tools, applying them in hands-on projects to strengthen practical experience with cloud-based application development.
